Our Founder, Alfred Nobel

A Swedish chemist, engineer, inventor, businessman, and philanthropist... he is best known for having bequeathed his fortune to establish the Nobel Prize, though he also made several important contributions to science, holding 355 patents in his lifetime.

Nobel's most famous invention was dynamite, a safer and easier means of harnessing the explosive power of nitroglycerin; it was patented in 1867 and was soon used worldwide for mining and infrastructure development. He was fluent in six languages and filed his first patent at age 24. He embarked on many business ventures including manufacturing of explosives and military armaments.

Star Team Target

Refine your skill. Maintain your budget.

You've been preparing for competition for most of your life and you've put a lot of cartridges through your gun. You understand more than most that in order to stay on top, you must continually train to refine your technique and skill. Unfortunately, to be competitive, all of that training can be expensive. We understand the competing pressures of staying sharp and not breaking the bank. Star Team Target was specifically developed to provide a high quality training cartridge that maintains a high level of performance while being gentle on the wallet.

Star Team Evo

Put a Star on Your Team!

Developed in cooperation with some of the best competitive shooters in the world, including our own Alberto Fernandez who claimed Olympic Gold at the Tokyo games in 2020, the new Star Team Evo and Platinum provide a range of higher quality loads for the best patterns, special powder blends to deliver fast shot across all payloads and shot sizes, all with less recoil. Importantly, the velocity consistency from one payload to another allows a shooter to choose the best load for any situation without having to compromise similar felt recoil or speed.

Vintage Paper, Vinci Premium Rio Royal Pigeon

Premium Loads for clays and flyers

Developed with paper hulls instead of plastic for clays, flyers and helice, Vintage 1896 ensures the same handmade experience felt by shooters 100 years ago.

Vinci is a premium cartridge developed to exceed the needs of even the best target shooters. Vinci is distinguished as a cork wad shotshell with superior recoil characteristics and consistently exceptional performance.

Rio Royal Pigeon flyer loads offer superior quality and performance for short- and long-distance targets, delivering the power required to run 30 straight.

Pheasant & Turkey

Superior performance for upland game

Upland hunting signals the end of fall to most of the Midwest, as the weather cools and harvests begin. The pheasant hunters in South Dakota have a different need than the quail hunter of Georgia or the woodcock hunter of Minnesota. Some things are constant— there are usually few opportunities to shoot, the shot is almost always a surprise, and you don't want your ammo choice to let you down. We developed the RIO Royal Pheasant Copper line for the avid pheasant hunter to includes 12 ga, 20 ga, and 28 ga. The premium copper-plated shot is designed for humane harvesting and less cripples.

Pro Eco BlueSteel™

What We Leave Behind Matters

Royal Eco BlueSteel:

A global leader in non-lead shotgun loads, Rio Ammo's BlueSteel line excels in performance. Powders and cartridge wads are specifically designed for the challenges of steel shot ensuring reliable results. Rio introduced the first hydro-soluble wad available on the market in 2019. Today, Rio is incorporating this new component into its BlueSteel line, taking a huge step forward in reducing environmental impact.

Buckshot & Slugs

For hunting, competition & defense roles.

Whether in the field, the 3-Gun shoot or when lives are on the line, you can rely on Rio Buckshot. An excellent choice for game, home defense and competition, the sheer kinetic energy transfer of buckshot means one thing – confident knockdown power. A superb choice for whitetail-sized game, Rio 12 and 20 gauge Buckshot loads are offered in many pellet sizes, including low-recoil options, and provide unmatched performance when you need it most.

For the ultimate statement in shotgun power, Rio's advanced line of slugs ensures you have the confidence needed to take on the toughest targets. Available in 12 and 20 gauge with a variety of payloads and velocities from 1,200 to 1,550 fps.

In 2022 Rio introduced a dedicated tactical training field loads so that you can stay on target and under budget.
